HOW DID ALIENS (ANUNNAKI) ALTER HUMAN DNA

New Science (Gregory Mattloft) is saying that the Universe is alive, intelligent and conscience. Entire galaxies will move if something begins to affect them. They will create evasive maneuvers. Greg states that the Universe is a living organism. The book "Deep Truth" and "Human By Design" is suggested reading. Greg believes in Evolution but not when it comes to humans. He states that Anatomically Modern humans showed up 200-300 thousand years ago as a fully developed species. We showed up on earth with a brain 50% larger than any other primate. We have in us genetic mutations from alien, that occurred quickly not slowly or gradually such as what happens in the evolution of lower species.

The multiple alien human hybrid mutations occurred at the same time. Two chromosomes were fused and tweaked at the same time. Two little pieces of our (ctag) were fused and activated (genetic mutations) so that we can talk and sing at the same time. Our bodies and brains have not

changed for 200-300 years but they have been genetically modified from Scandinavian man to alien human hybrid man.

This does not fit in Darwin's Theory of Evolution. It will never fit. It does not fit with what we have been taught in our schools or churches when it comes to HUMAN HYBRIDIZATION. "You cannot put a square peg in a round hole" which is what Evolutionists etc., are trying to do. Textbooks are being banned that teach this so that we can continue to believe the old theories.

I have to pop in with what Jesus taught here because this DOES NOT CORRESPOND to what he taught. He taught that we are beings that he engineered and placed on earth for his glory. We came fully human to enjoy his creation before that Anunnaki Elohim aliens begin to genetically alter the human race.

Human Evolution - Gregg Braden's Perspective vs Mainstream... Something Happened 2...
We Haven't Changed!
Scientists Claim Cro Magnon DNA Fully Modern, Unchanged for 28,000 Years
A Cro-Magnon DNA sequence 28,000 years old was obtained from fossil bones discoverd in the Paglicci cave, in Italy. The results show that the DNA is identical to the DNA sequences of certain modern Europeans. The DNA sequence has remained static and unchanged over 28,000 years. This means that Cro Magnon was a fully modern individual who perhaps had a larger brain capacity. (1)

Seven thousand five hundred fifty-six (7556) haplotypes of 46 subclades in 17 major haplogroups were considered, and the finding that the Europeoid haplogroups did not descend from "African" haplogroups A or B is supported by the fact that bearers of the Europeoid haplogroups, as well as all non-African haplogroups do not carry either SNPs M91, P97, M31, P82, M23, M114, P262, M32, M59, P289, P291, P102, M13, M171, M118 (haplogroup A and its sub-clades SNPs) or M60, M181, P90 (haplogroup B). Our Anatomically Correct Scandinavian Ancestor before alien human hybridization

Greg starts with fossilized human DNA from our Scandinavian human ancestors who lived 200-300 years ago. He states that scientists know humans did this not descend from the Neanderthal. We walked the earth with them but they evolved separately from anatomically modern humans aka (Cro-Magnons).

ABSTRACT We have identified two allelic genomic cosmids from human chromosome 2, c8.1 and c29B, each containing two inverted arrays of the vertebrate telomeric repeat in a head-to-head arrangement, 5'(TTAGGG)n-(CCCTAA)n3'. Sequences fln g this telomeric repeat are characteristic of present-day human pretelomeres. BAL-31 nuclease experiments with yeast artificial chromosome clones of human telomeres and fluorescence in situ hybridization reveal that sequences flanking these inverted repeats hybridize both to band 2q13 and to different, but overlapping, subsets of human chromosome ends. We conclude that the locus cloned in cosmids c8.1 and c29B is the relic of an ancient telomeretelomere fusion and marks the point at which two ancestral ape chromosomes fused to give rise to human chromosome 2.
